Textura – CPM System

R.D. OLSON CONSTRUCTION
When every detail counts…

Textura®–Construction Payment Management™: Work Faster and More Efficiently

R.D. Olson Construction, Inc. will be using an automated qualification and payment processing service, Textura's CPM System, on the above-referenced project. We anticipate this system will reduce paperwork and decrease invoicing and payment processing time.

Using CPM will allow you:

- Automatic generation of your AIA G702/703 and Lien Release documents
- Email notification as the draw progresses
- Immediate feedback if your invoice is questioned
- Notification when you will be paid
- Direct electronic payments
- Direct downloading of all qualification documents

Unless otherwise directed or authorized in writing by RDOC, all Applications for Payment and all supporting documents (including but not limited to lien waivers, sworn statements, and the like) for Subcontractor and its sub-subcontractors and suppliers, shall be in electronic format and shall be submitted to RDOC using the Textura-CPM™ payment management system. Subcontractor shall be responsible for the fees and costs owed associated with Subcontractor's use of the Textura-CPM™ payment management system. Subcontractor shall include a similar provision in its sub- subcontracts and purchase orders. Fees to Subcontractors are calculated as 0.22% (22 basis points) of contract value, with a minimum fee of $0 and a maximum fee of $3,750. Fees to Subcontractors' sub-subcontractors and suppliers are a fixed fee of $100 per sub-subcontractor or supplier contract.

The following Textura training options will be available to you:

- 30-minute training and information sessions, offered MWF. Please copy and paste the following link into your internet browser to register: http://www.texturacorp.com/training/webinarschedule.htm
- Individual training with Textura Customer Support at 866-TEXTURA. Staffed from 7a-8p CT M-F.
- Self-administered training through online videos and the Subcontractor Reference Guide.

Textura has proven to be very responsive about customer service. Please contact their Customer Support team at 866-TEXTURA or customerservice@texturacorp.com when you need assistance or have questions.

Upon receiving your invitation to join CPM, we appreciate your prompt response. Thereafter, each month you will be contacted by email when the draws are opened and scheduled to close. All e-mails will come from textura-system@texturallc.com. Please make set your email to recognize this sender as a legitimate email and not "spam" or "junk".

Construction Payment Management®

Textura®–Construction Payment Management™: Work Faster and More Efficiently

What Is Textura-CPM™?

Textura-CPM is an Internet-based construction invoicing and payment solution. With the Textura-CPM system, subcontractors can electronically sign and submit their pay applications—including invoices, sworn statements, and conditional and/or unconditional lien waivers. Payments are made electronically via ACH (Automated Clearing House) resulting in faster access to your funds. In addition, Textura-CPM facilitates submission and tracking of compliance documents and sub-tier lien waivers. In short, Textura® has revolutionized the construction payment process. Thousands of subcontractors currently use Textura-CPM to submit their pay applications every month.

Sign Pay Applications and Submit Electronically

Textura-CPM automatically generates the required Pay Application documents and transmits them to your GC electronically at the click of a button.

- Invoices are created by simply entering a percent complete or dollar value by line item of your budget.
- Electronic submission of documents eliminates the expense and inconvenience of fax or hand delivery.
- Invoice amounts are verified with lien waiver and payment amounts, reducing the risk of error.

Receive Payments via ACH

Textura-CPM uses the secure ACH network for electronic deposit of funds to accelerate draw payments.

- ACH will deliver funds faster than a manual check. Payments are made through Textura-CPM directly by the GC and are subject to the terms of your contract.
- ACH works like direct deposit. Funds are immediately available, no waiting for checks to clear.
- Textura-CPM alerts you via email that payment has been disbursed.

Know What is Happening, When It Happens

Textura-CPM offers complete visibility throughout the draw process and notifies users of critical events.

- Receive real-time notifications when a draw is opened, change order issued, payment disbursed, etc.
- Receive email reminders to update expiring insurance documents and notification of non-compliance.
- Online invoice approval and rejection ensures that both parties are informed of final invoice amounts.

Manage Documents Online

Project documents created in or uploaded to the system are available for viewing, printing or downloading to your computer. Textura-CPM will store these documents for a minimum of ten years.

- Pay Application backup documents are submitted quickly and easily via an upload attachment feature.
- Electronic submission & tracking of legal documents such as insurance certificates reduces payment holds.
- Possibility for lost or delayed documents resulting in held payments is virtually eliminated.

What Does It Cost to Use Textura-CPM?

- **0.22% of contract value**
  - Minimum – $0
  - Maximum – $3,750
  - Sub-tier subcontractors – $100
  - Applicable taxes apply.
- **Payment Methods**

ACH (default) or Credit Card (2.5% processing fee)

- **Deferral (Optional)**

If the usage fee exceeds $250, you may pay $250 upfront and the remaining balance will be paid with your first draw payment. A $45 deferral fee applies.

- **Annual Subscription (Optional)**
  - Covers unlimited use of Textura-CPM
  - Payable in advance for 12-month period
  - Contact Textura to discuss this option

Note: A Service Fee of $22.50 will be added in the event that the usage fee cannot be collected successfully from your bank account or credit card. This is commonly due to a 'debit block' on the bank account.

Technical Requirements:

Textura-CPM is completely web-based—there is no software to install. Users need only:

- Internet access (high-speed recommended)
- Email address for each user
- Adobe Acrobat Reader 6.0 or higher (free download).

Free Training & Support:

Textura supports your training needs with:

- Free webinars available through Textura's website
- Computer-Based Training (CBT) modules
- Individual training by phone
- Classroom training where available.

Support representatives are available to answer your questions at 866-TEXTURA (866-839-8872). Visit the Textura website at www.texturacorp.com.

Textura – CPM™ Electronic Signature Overview

In order to improve efficiency, facilitate the exchange of lien waivers for payment and advance green initiatives, the Textura System utilizes electronic signatures for documents such as invoices and lien waivers generated in the system. Electronic signatures are supported by Federal Statute, State Statutes in all 50 states and by Contract through Textura's Terms & Conditions.

Textura employs electronic signature technology provided by AlphaTrust to ensure a properly signed electronic document, provide a full audit trail of the signing transaction and a central electronic document archive. This technology *exceeds all mandates* set forth by ESIGN and UETA. Additional information regarding the AlphaTrust Pronto Server Electronic Records and Signature System is available upon request.

Federal electronic signature legislation:
Federal Electronic Signatures in Global and National Commerce Act (ESIGN)

- A contract or other record may not be denied legal effect solely because it involved the action of an electronic agent
- If notarization or acknowledgment of a signature or record is required, that requirement is satisfied if the electronic signature of the person notarizing the record is "attached to or logically associated with the signature or record"

State electronic signature legislation:
Uniform Electronic Transactions Act (UETA)

- A record or signature may not be denied legal effect or enforceability solely because it is in electronic form
- A contract may not be denied legal effect or enforceability solely because an electronic record was used in its information
- If a law requires a record to be in writing, an electronic record satisfies the law
- If a law requires a signature, or provides for certain consequences in the absence of a signature, an electronic signature satisfies the law

Contract law provides additional legal support for the use of electronic signatures in the Textura System. When users agree to Textura's Terms and Conditions, they agree:

- To accept Textura electronic signatures and electronic notarization
- That electronic signatures are a valid form of execution of contracts and other documents
- That any such contracts and documents signed electronically by other participants using the Textura System, including all invoices, sworn statements, change orders, and lien waivers, are validly executed
- That each signatory is in fact an authorized signatory
- To protect and not share their user IDs, passwords, and PINs

Signature Audit Report

Document Information for Document ID#: 1000458694

Document Title:	RML2PDF Evaluation Test Document
Document Type:	PDF Document
Document Status:	Complete
Created:	8/10/2012 2:06:13 PM
Completed (all sigs):	8/10/2012 2:06:17 PM

Signature Information for Signature ID#: 1000660896

Signature Status:	Complete
Signer Name:	Jim Knoller
Signer Email:	gennifer.cosper@texturacorp.com

Event History

Signer retrieved document for review:	8/10/2012 2:06:18 PM
Signer's signature applied to the document:	8/10/2012 2:06:17 PM

Authentication and Security

Signer's Internet IP address:	10.13.136.117
Signer's Internet (DNS) machine name:	chzeuspro2-be.texturallc.net
User authentication method completed:	Registered User Login
E-Signature Creation Method:	Standard text font.
Digital Signature Method:	Server certificate

Document Data Integrity

This document has been electronically sealed with a digital signature by this server. You may verify that the copy archived on this server has not been tampered with (ie, it has not changed since it was signed). Clicking the link below will retrieve the document from the archive, verify the seal, and display the document and verfication status to you.

Verify and view this completed document.
